

COLORIFICIO MP

LINEA CALCE MARMORINO

Where Italian tradition meets contemporary living.
Natural lime finishes for elegant, breathable and healthy spaces.

MADE IN
ITALY BY **MP**

LINEA CALCE MARMORINO

Authentic Italian lime finishes.
Tradition, craftsmanship and sustainability

Natural, **eco-friendly** decorating and painting systems, free from harmful substances, designed to create **safe and comfortable living spaces** that enhance people's well-being.

Rooted in the ancient **Mediterranean** civilizations, our lime-based finishes revive a timeless **artisan tradition**.

Reinterpreted through a contemporary lens, they bring **unique, tactile beauty to walls** and architectural surfaces.

Why Choose

LINEA CALCE MARMORINO

Performance, beauty and sustainability in every layer.

Breathable and healthy

Our lime-based finishes allow walls to breathe, naturally regulating humidity and reducing the risk of mould and condensation.

Durable and mineral-based

Made from pure slaked lime and selected natural aggregates, our finishes create long-lasting, hard and mineral-rich surfaces.

VOC-free and non-toxic

All formulations are free from synthetic resins and harmful substances, making them safe for people and the environment.

High aesthetic value

Soft textures, rich reflections, unique chromatic depth. Each surface is a blend of natural elegance and artisanal craftsmanship.

Ready for modern design

Ideal for both classic and contemporary interiors. Perfect for high-end residential, retail and hospitality projects.

About MP

EXPERIENCE & CRAFTSMANSHIP

30+ years manufacturing lime finishes.

Registered as a Traditional Artistic Enterprise in Italy.

Italian design meets handcrafted techniques.

QUALITY & SUPPORT

DIN 18363 certified products.

Guaranteed colour fidelity with in-house tinting systems.

Technical assistance and certified applicator training.

SUSTAINABILITY & RESPONSIBILITY

100% green energy used in manufacturing.

Low-voc, natural lime formulations.

Commitment to indoor well-being and healthy living spaces.

LINEA CALCE MARMORINO

Discover the Collection

NATURAE	Natural paint with a soft, matte limewash look
MARMO DI VENEZIA	High gloss Venetian Plaster

INTONANTICO	Coarse lime plaster for a mineral look
BIZANTINO	Plaster with golden, silver or bronze reflections
RASATO ANTICO	Plaster with coloured marble aggregates
RASATO EXTRAFINE	Matt smooth plaster with a special white look

NATURAE

Natural lime paint for a limewash effect

- Application by brush
- To achieve special effects and shades with a vintage feel.
- Ideal for green buildings and for preservative restoration of ancient buildings.
- Particularly suitable for rooms affected by humidity.
- For the creation of safe and eco-friendly spaces.

NATURAE

Natural lime paint for a limewash effect

Surface preparation: Accademia Silik Primer / Smartcoat / Primer A

Application: by brush

Dilution: 30% with water

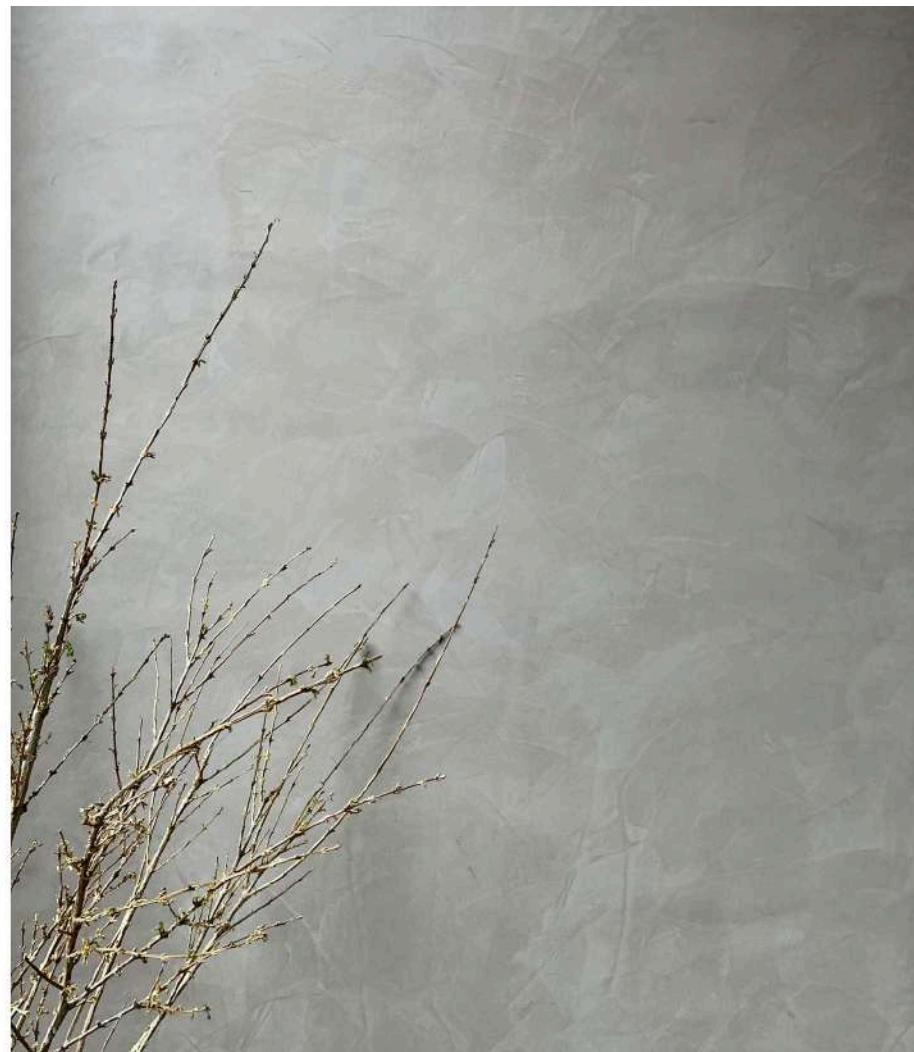

Coverage: 18 – 20 sqm / l per coat

MARMO DI VENEZIA

The best authentic expression of the Italian tradition of Venetian Plaster with a super-glossy finish

- Extrafine grain (30 micron) for the creation of smooth and glossy surfaces.
- Particularly suitable in high-end interiors and for the restoration of villas and palaces.
- Excellent vapour permeability.
- Compliant to DIN 18363 standard.
- Further polishing and protection with Marmo Venezia Sapone (natural) or Cera per Stucco di Venezia (wax).

MARMO DI VENEZIA

The best authentic expression of the Italian tradition of Venetian Plaster with a super-glossy finish

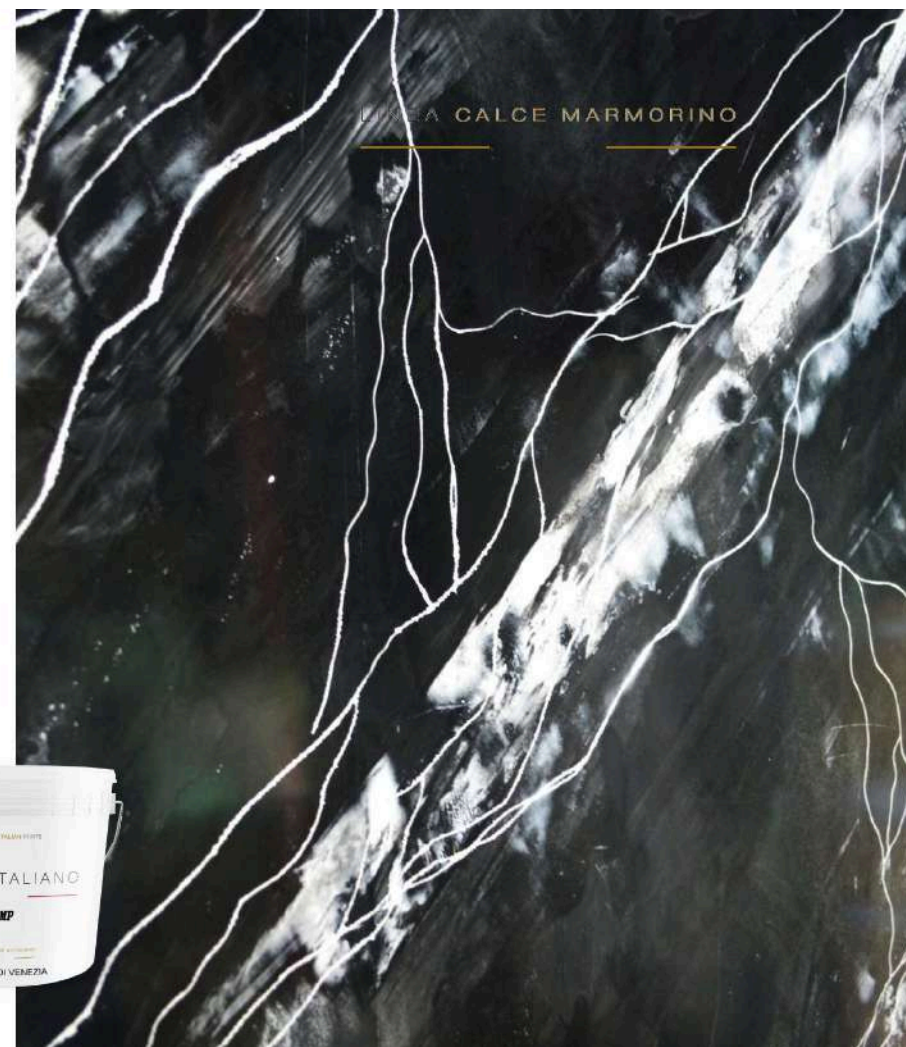

Surface preparation: Rasato Fine

Application: by trowel

Dilution: ready to use, in paste

Coverage: 4 – 6.5 sqm / kg per coat

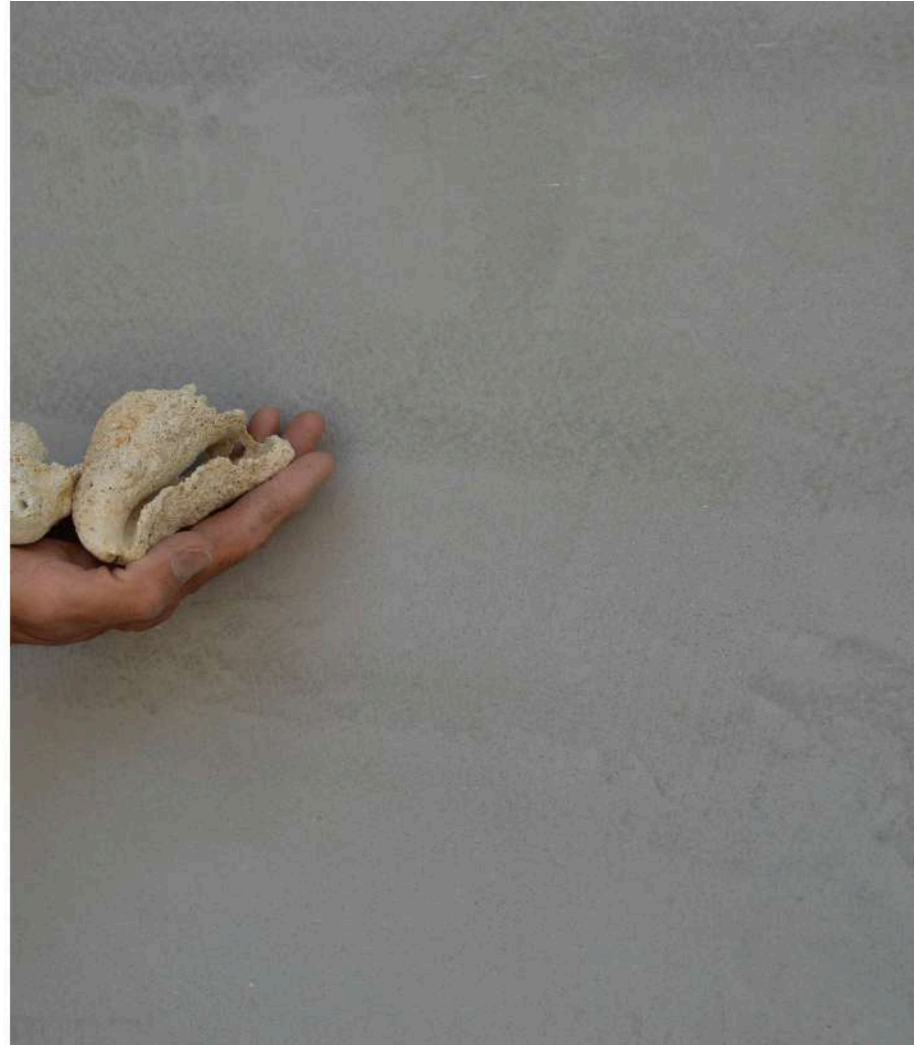

Consumption rate: 0.150 - 0.250 kg / sqm per coat

RASATO FINE

Pure lime polished plaster for semi-gloss finishes and concrete effects.

- Medium-fine grain (max grain size 0.5 mm)
- Semi-matt finish
- By polishing it, it is possible to achieve a semi-gloss effect.
- Ideal for the creation of both traditional rustic effects and contemporary industrial-style ones.
- For interior and exterior.
- Base coat for Marmo di Venezia.

RASATO FINE

Pure lime polished plaster for semi-gloss finishes and concrete effects.

Surface preparation: Smartcoat (on non-mineral substrates)

Application: by trowel

Dilution: ready to use, in paste

Coverage: 2 - 2.5 sqm / kg per coat

Consumption: 0.4 - 0.5 kg / sqm per coat

RASATO TRAVERTINO

Lime-based polished plaster for the creation of textured effects, including the travertine stone effect.

- Medium-rough grain (max grain size 0.7 mm)
- Matt finish
- To create a great variety of textures, including pitted effect, stone effect and concrete effect.
- It is possible to polish it to achieve a lightly semi-gloss effect.
- For interior and exterior.

RASATO TRAVERTINO

Lime-based polished plaster for the creation of textured effects, including the travertine stone effect.

Surface preparation: Smartcoat (on non-mineral substrates)

Application: by trowel

Dilution: ready to use, in paste.

Coverage: 0.7 - 1 sqm / kg per coat

Consumption rate: 1 - 1.4 kg / sqm per coat

INTONANTICO

Vapour permeable lime plaster for the decoration and protection of interior and exterior walls.

- Available in 2 grain sizes: 0.8 mm and 1.2 mm.
- Matt finish.
- It can be applied as a textured coating or polished.
- It gives the surface a mineral rustic look.
- Ideal for the protection and decoration of historical buildings.
- For interior and exterior.

INTONANTICO

Vapour permeable lime plaster for the decoration and protection of interior and exterior walls.

Surface preparation: Intocalce (in exterior), Smartcoat (on non-mineral substrates)

Application: by trowel and sponge trowel (optional)

Dilution: ready to use, in paste.

Consumption rate: Fine grain (0.8 mm) : 0.7 - 0.8 kg / sqm per coat
Rough grain (1.2 mm) : 1.2 - 1.5 kg / sqm per coat

BIZANTINO

Polished plaster with special golden, silver, bronze reflections.

- Available Oro (golden flakes), Argento (silver flakes) and Bronzo (bronze flakes).
- Smooth and semi-matt finish.
- Ideal for creating both classic and modern interiors to give the walls a unique design.

BIZANTINO

Polished plaster with special golden, silver, bronze reflections.

Surface preparation: Smartcoat (on non-mineral substrates)

Application: by trowel

Dilution: ready to use, in paste.

Coverage: 2 - 2.5 sqm / kg per coat

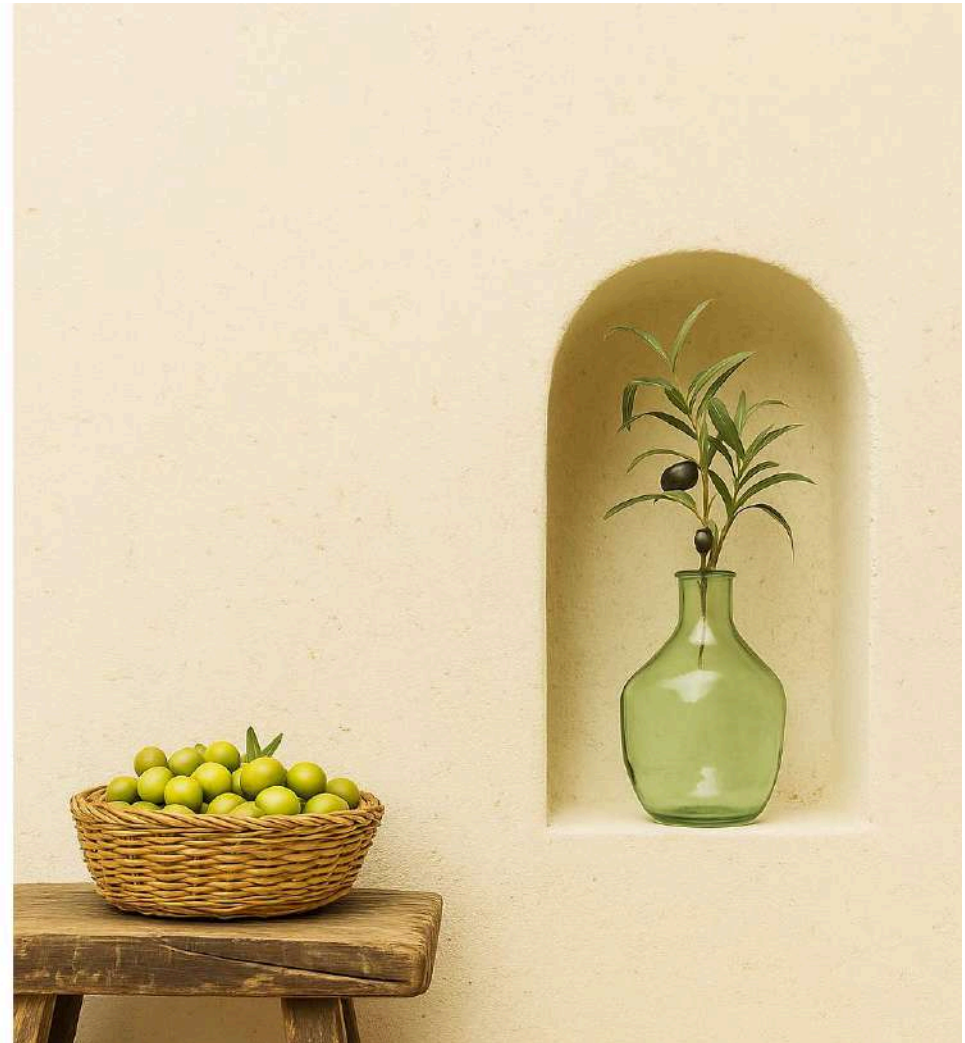

Consumption rate: 0.4 - 0.5 kg / sqm per coat

RASATO ANTICO

Lime plaster with selected marble chips that give a natural colouring to the plaster for a refined effect.

- Available in 6 colours: Ardesia, Ambra, Botticino, Breccia, Corallo, Giada
- Smooth and semi-matt finish.
- The polishing of the surface intensifies the shading effect given by the special mineral aggregates.

RASATO ANTICO

Lime plaster with selected marble chips that give a natural colouring to the plaster for a refined effect.

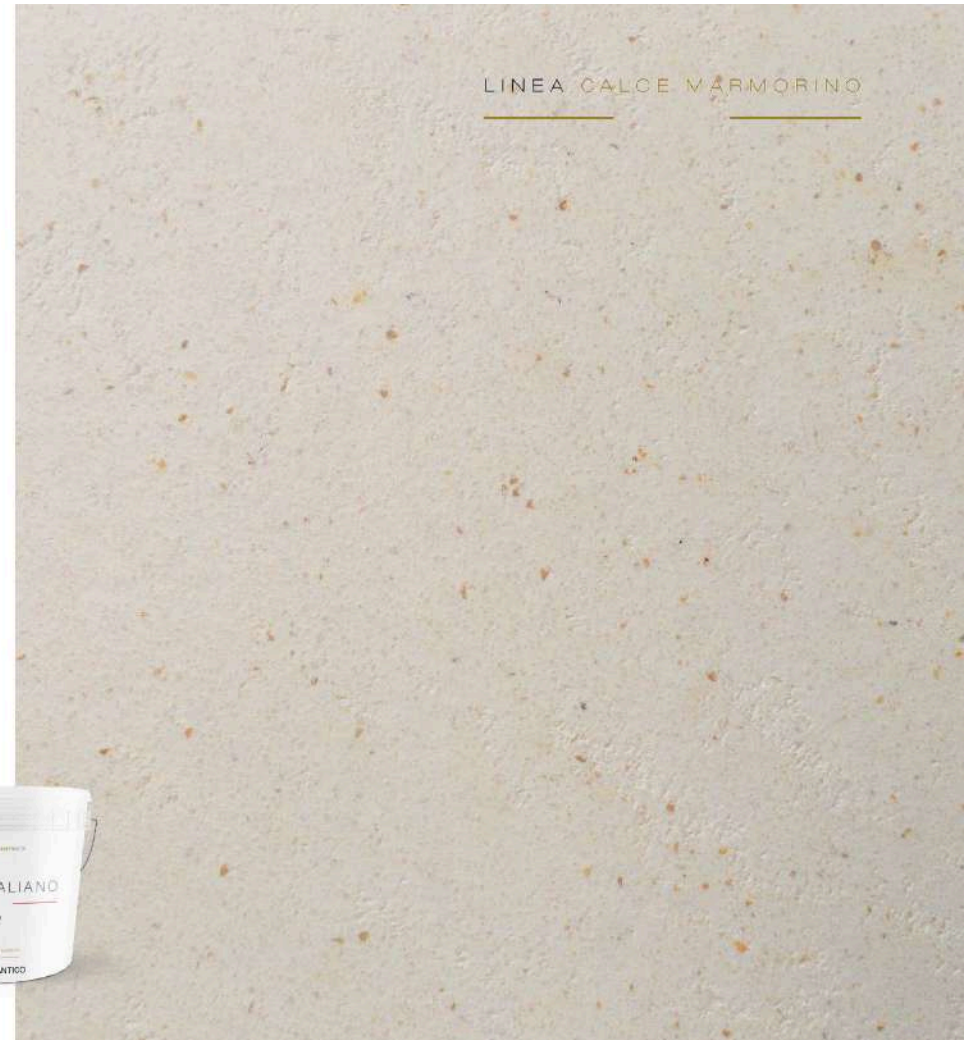

Surface preparation: Smartcoat (on non-mineral substrates)

Application: by trowel

Dilution: ready to use, in paste

Coverage: 2 - 2.5 sqm / kg per coat

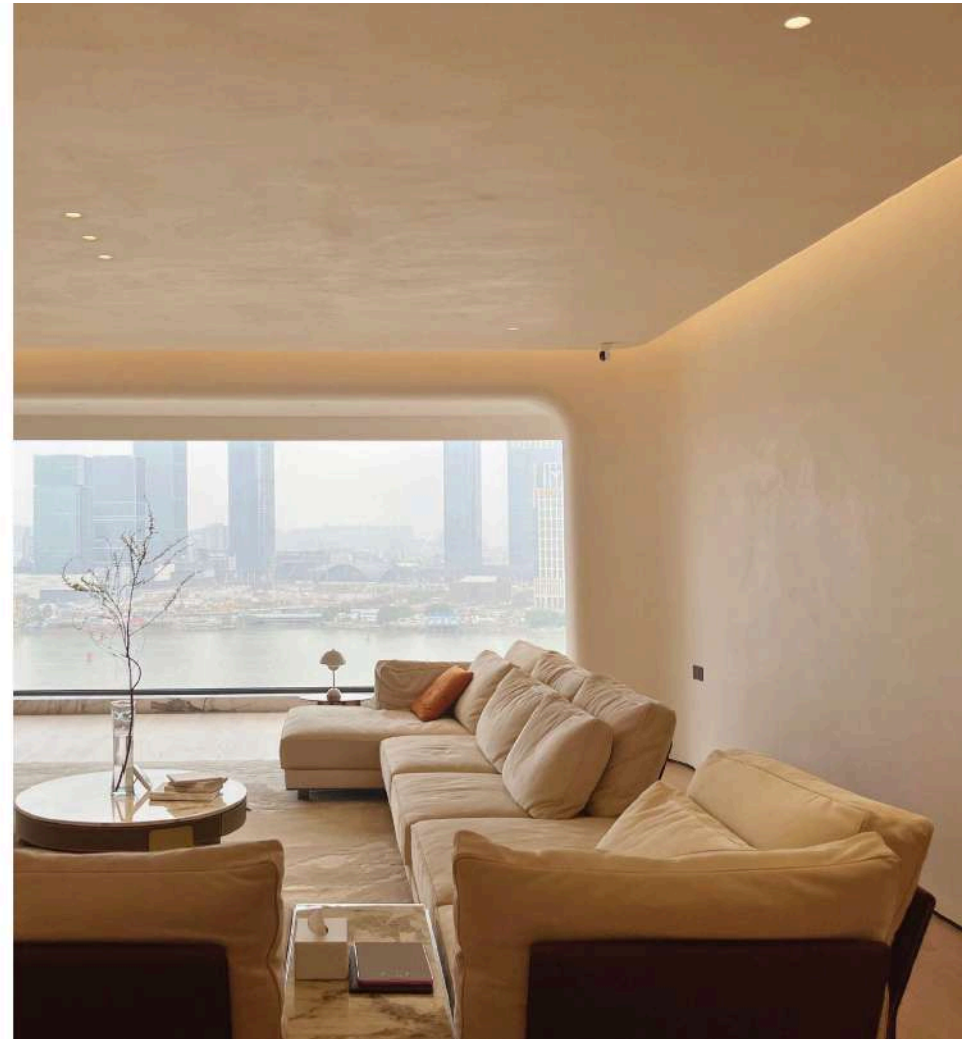

Consumption rate: 0.4 - 0.5 kg / sqm per coat

RASATO EXTRAFINE

Polished plaster for smooth semi-matt finishes with a nice white look.

- Smooth and matt finish.
- Excellent white finish.
- Increased flexibility.
- Also ideal for high thickness effects.

RASATO EXTRAFINE

Polished plaster for smooth semi-matt finishes with a nice white look.

Surface preparation: Smartcoat (on non-mineral substrates)

Application: by trowel

Dilution: ready to use, in paste

Consumption rate: 0.3 - 0.5 kg/m² per coat for smooth effects
2 - 2.2kg/m² per coat for textured effects
